Subject Purchase of Dehner Sewer

COPIES TO:

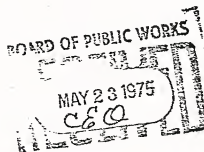

We have put a great deal of work on this problem, the net result of which is that we see no reason for the City not to purchase the sewer. However, the law in this area has a gap in it - a city could keep a privately owned sewer company from operating in its territory and vice versa but apparently there is nothing to keep New Haven and Fort Wayne from competing for customers in the same area.

We are advised by Dehner that most of the people in Meadowbrook would prefer to deal with Fort Wayne rather than New Haven and that New Haven has not entered into a contract with the Meadowbrook community association. This is in our favor, as is the fact the New Haven system is already over-taxed.

On the other hand, New Haven has been wholesaling the area for several years and may claim this creates a proprietary interest.

The safest thing is to make the deal with Dehner contingent on the city's establishing the right to replace New Have as the wholesaler in the event there is any litigation.

Please call me if you have any questions.

Honorable Members of Board of Public Works
900 City-County Building
Fort Wayne, Indiana 46802

Dear Sirs:

In conversation with City Engineer Ron Bonar, he states that the City is collecting for sewer service to King's Department Store, McDonald's and a couple of Service Stations on the south side of U.S. 24 and 30 East and we feel that we are entitled to remuneration as we hold title to the main line sewer known as the Meadowbrook Sewer as recorded in Book #73, Page #16002 in the Office of Recorder for the County of Allen, which description is as per attached Bill of Sale.

As you know, we built the sewer you purchased from Indiana Suburban Sewer, Inc. and Suburban Services, Inc. to a point on the south side of the Norfolk & Western Railroad to a point in Adams Township which was the East boundary line of the Territory Franchised by the State of Indiana to Indiana Suburban Sewer, Inc. and Suburban Services, Inc.

At that time, the Meadowbrook Community Association, Inc. with Mr. Jack Fisher as President wanted Indiana Suburban Sewer, Inc. and Suburban Services, Inc. to dispose of their sewage and made a contract with John Dehner, Inc. to build the connecting sewer to the Suburban Sewer manhole at the east end of their franchise territory which we constructed and which construction was inspected by an appointee of the then Board of Public Works of the City of Fort Wayne. Meadowbrook Association had made arrangements with the Anthony Wayne Bank to borrow the amount to pay us, which deal was for some reason not known to us was never completed. So sometime after that at a meeting of the Association and ourselves, we agreed to accept a deed and Bill of Sale for the amount of the contract we had with them, which at this time, with interest to date, not taking into consideration the price it would cost today, is set at the sum of \$28,447.84.

The City of New Haven has been in contact with us on the possibility of their purchasing this sewer line. However, in light of the apparent negotiations between Fort Wayne and New Haven on the possibility of Fort Wayne treating New Haven sewage, we feel it would be more advantageous for Fort Wayne to own this line. Fort Wayne could immediately pick up some \$300 or so customers from the Meadowbrook area and eventually, if so desired, this line could be used as a portion of the ultimate hook-up between the two cities. Therefore, we take this opportunity to offer, for your consideration, the sale of these sewers to the City of Fort Wayne at the above mentioned price.

Very truly yours,
JOHN DEHNER, INC.

On the first day of September 1969, Meadowbrook Community Association, Inc. entered into a Contract with John Dehner, Inc. for the construction of a sewer to connect their sewage collection system to an interceptor sewer of Indiana Suburban Sewers, Inc., which consisted of approximately 1,102 ft. of 18", 15" and 12" sewers, six manholes and tunneling under U. S. Highways 24 and 30, over the following described location;

Commencing and connecting at the north end of Meadowbrook Drive in Meadowbrook Addition, Section 1, and proceeding north along the extension of said Meadowbrook Drive to a manhole at a point south of U.S. Highways 30 and 24, thence west parallel to said Highways approximately 67 feet to a certain manhole, thence north 130 feet under U.S. Highways 30 and 24 to a certain manhole on the north side of said Highways, thence west parallel to said Highways approximately 150 feet, to a certain manhole, thence north approximately 562.4 feet to a certain manhole at the northeast corner of the property owned by Richard J. and Betty Stehl, thence west parallel to the north boundary of said Stehl property at which point it connects to the collection system of Indiana Suburban Sewers, Inc. within its franchised territory.

The above described sewer has been completed according to the plans and specifications under City of Fort Wayne, Indiana inspection.

On October 27, 1969 the Association signed a promissory note to borrow money from Anthony Wayne Bank to pay for the work under said Contract, but the Association did not obtain said monies and nothing has been paid to John Dehner, Inc. for this work to date.
